DIV. OF OIL, GAS & MINING

<<putting in stake.JPG>> <<marking on boundary stake.JPG>>

Tom:

this moring we went out and placed 7 stakes in the location shown on the mine plan.  
The first picture shows one being pounded in and the other picture shows the marking on the post (M/045/006).

Let me know if you want photos of each stake in location with the inner boundary area in the background. I did not get this, but can if you need it.

Thanks,  
John
